 - International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
 - Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

These condensed interim financial statements do not include all the information and disclosures required in annual financial statements and should be read in conjunction with the annual audited financial statements of the Company for the year ended 30 June 2020. These condensed interim financial statements are unaudited, however, have been subjected to limited scope review by the auditors and are being submitted to the shareholders as required by the Listed Companies (Code of Corporate Governance) Regulations, 2019 and Section 237 of the Companies Act, 2017.

3. ACCOUNTING POLICIES

The accounting policies and methods of computations adopted for the preparation of these condensed interim financial statements are the same as applied in the preparation of the preceding annual audited published financial statements of the Company for the year ended 30 June 2021.

3.1 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of these condensed interim financial statements in conformity with the approved accounting standards requires the use of certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

During preparation of these condensed interim financial statements, the significant judgments made by the management in applying the Company's accounting policies and the key sources of estimation and uncertainty were the same as those that applied in the preceding annual audited published financial statements of the Company for the year ended 30 June 2021.

6 CONTINGENCIES AND COMMITMENTS

6.1 Contingencies

There is no significant change in the status of contingencies as disclosed in the preceding audited annual published financial statements of the Company for the year ended 30 June 2021 except for the following:

6.1.1 On 29 November 2021, Deputy Commissioner Inland Revenue (DCIR) passed an order uner section 170(3) of the Income Tax Ordinance, 2001 whereby income tax refunds amounting to Rupees 3.323 million were rejected for the tax year 2017 on account of excess payments / deductions claimed. The Company has filed an appeal before Commissioner Inland Revenue (Appeals) [CIR(A)] which is pending adjudication.

Further, 04 January 2022, subsequent to the reporting period, DCIR passed an order uner section 170(3) of the Income Tax Ordinance, 2001 whereby income tax refunds amounting to Rupees 6.206 million were rejected for the tax year 2020 on account of excess payments / deductions claimed. The Company has filed an appeal before Commissioner Inland Revenue (Appeals) [CIR(A)] which is pending adjudication.

Based on the advice of legal counsel, the management is confident that outcome of the appeal would be in favour of the Company. Hence, no provision against the aforesaid rejections has been made in these condensed interim financial statements.

- 9.2 As at 31 March 2022, the Company held 2,605 (30 June 2021: 2.282) mature assets able to produce milk and 2,432 (30 June 2021: 1,834) immature assets that are being raised to produce milk in the future. During the period ended 31 March 2022, the Company produced approximately 16,855,400 (31 March 2021: 14,214,011) gross liters of milk from these biological assets. As at 31 March 2022, the Company also held 34 (30 June 2021: 75) immature male calves.
- The valuation of dairy livestock as at 31 December 2021 has been carried out by independent valuers. In this regard, the valuers examined the physical condition of the livestock, assessed the key assumptions and estimates and relied on the representations made by the Company as at 31 December 2021. Further, in the absence of an active market of the Company's dairy livestock in Pakistan, market and replacement values of similar livestock from active markets in Europe, Australia and United States, have been used as basis of valuation by the independent valuers. The cost of transportation to Pakistan is also considered.

The Company has an aggregate amount of recognized deferred income tax asset of Rupees 148.155 million (30 June 2019: Rupees 124.563 million) which represents management's best estimate of the probable benefits expected to be realized in future years in the form of reduced tax liability as the Company would be able to set off the profits earned in those years against losses carried forward. The Company has prepared five years financial projections for future taxable profits, which have been approved by the Board of Directors of the Company, to assess the recoverability of deferred income tax assets. The projections involve certain key management assumptions underlying the estimation of future taxable profits. The determination of future taxable profits is most sensitive to certain key assumptions such as recent capital injections, growth of herd, increase in milk yield, etc. Any significant changes in such assumptions may have an effect on the recoverability of deferred income tax asset. Management believes that it is probable that the Company will be able to achieve the profits and, consequently, the deferred income tax asset will be fully realized in future.

12 RECOGNIZED FAIR VALUE MEASUREMENTS - FINANCIAL INSTRUMENTS

(i) Fair value hierarchy

Certain financial assets and financial liabilities are not measured at fair value if the carrying amounts are a reasonable approximation of fair value. Due to short term nature, carrying amounts of certain financial assets and financial liabilities are considered to be the same as their fair value. For the majority of the non-current receivables, the fair values are also not significantly different from their carrying amounts. Judgements and estimates are made in determining the fair values of the financial instruments that are recognised and measured at fair value in these condensed interim financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company classify its financial instruments into the following three levels. However, as at the reporting date, the Company has no such type of financial instruments which are required to be grouped into these levels. These levels are explained as under:

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

13 RECOGNIZED FAIR VALUE MEASUREMENTS - NON-FINANCIAL ASSETS

(i) Fair value hierarchy

Judgements and estimates are made for non-financial assets that are recognized and measured at fair value in these condensed interim financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its non-financial assets into the following three levels.

At 31 March 2022		Level 1	Level 2	Level 3	Total
			Rupees		
Biological assets		-	2,258,810,524	-	2,258,810,524
Total non-financial assets	#	-	2,258,810,524	-	2,258,810,524
At 30 June 2021		Level 1	Level 2	Level 3	Total
			Rupees		
Biological assets	#	-	1,660,108,547	-	1,660,108,547
Total non-financial assets	#	-	1,660,108,547	-	1,660,108,547

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between levels 1 and 2 for recurring fair value measurements during the period. Further, there was no transfer in and out of level 3 measurements.

(ii) Valuation techniques used to determine level 2 fair values

The fair value of these assets is determined by independent valuers. Fair value of biological assets has been determined using a replacement cost approach, whereby, current cost of similar dairy cattle in the international market has been adjusted for transportation costs to arrive at fair value.

Valuation processes

The Company engages external and independent valuers to determine the fair value of the Company's biological assets at the end of reporting period. As at 31 December 2021, the fair value of the biological assets was determined by M/s Saddruddin Associates (Private) Limited and M/s Anderson Consulting (Private) Limited.

Changes in fair values are analysed between the chief financial officer and the valuer. As part of this discussion the team presents a report that explains the reason for the fair value movements.
